

INFORMED CONSEN FOR TELEHEALTH SERVICES

Prior to starting telehealth services, we discussed and agreed to the following:

- There are potential benefits and risks of telehealth (e.g. limits to patient confidentiality) that differ from in-person sessions.
- Confidentiality still applies for telehealth services, and nobody will record the session without the permission from the others person(s).
- We will agree upon the telehealth platform for our virtual sessions.
- It is important to be in a quiet, private space that is free of distractions during the session.
- It is important to use a secure connection rather than public/free Wi-Fi.
- It is important to be on time. The same 48-hour cancelation policy applies to telehealth sessions.
- If you need to cancel or change your appointment, you must notify us within 48 hours in advance, email preferred or voice message or text.
- We have discussed your telehealth insurance eligibility. It is understood that if your insurance company does not reimburse your sessions, **you are responsible for full payment.** Our rates for telehealth services, not covered by insurance, have been discussed and agreed upon.
- As your therapist, I may determine that due to certain circumstances, telehealth is no longer appropriate and that we should resume sessions in-person.
